10/06/2021	Indigo Shire Council North East Catchment Management Authority Yorta Yorta Nations Aboriginal Corporation DELWP Hume (Natural Environments Program) DELWP Rural Water Parks Victoria	The following motion was passed by all agencies present. Motion: <i>The proposal to submit a funding submission under the National Water Grid program is supported, to enable further investigation into the Lake Moodemere-Sunday Creek project</i>	NECMA also put the following caveat on their position - <i>Just to clarify our position on the motion put to the meeting. This is a large and complex project and the Authority has not yet seen the outcomes of investigations that would enable assessment of the project against our statutory obligations. Hence, we are agreeing that further investigations are required if the project is to go forward and your motion seeks to address this issue. However, the Authority does not take a position on supporting the project or otherwise. This is simply to protect the statutory review process and ensure we are not pre-judging the merits or otherwise of any future application under the planning scheme or Water Act.</i>
10/12/2021	Australian Government Department of Agriculture, Water and Environment	Project background and context regarding EPBC Act 1999 implications and expected voluntary referral	Demonstrated absence of Growling Grass Frog considering last targeted survey is >3years old.
