Erratum to Esso Pipeline Replacement Project – Longford to Hastings: Flora and Fauna Assessment (Biosis 2013)

Dear Tony,

The attached Figure 2.58 replaces the same figure in *Esso Pipeline Replacement Project – Longford to Hastings: Flora and Fauna Assessment* (Biosis 2013). The new figure removes the High Sensitivity Area shown in the report on the basis that construction in this area is unlikely to impact on an EPBC Act matter or other high sensitivity consideration as described in the methods of the report.

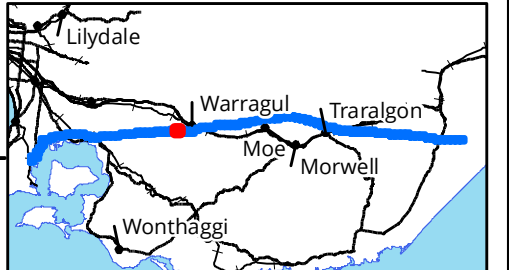

Please make relevant planning considerations with regard to this correction to the mapping.

Regards,

Matthew Dell

Principal Botanist

Legend

- Study Area
- Cadastre
- Scattered Trees
 - Very Large Old Tree
 - Medium Old Tree
- Tree protection zone
- Ecological Vegetation Classes
 - 29 Damp Forest
 - 937 Swampy Woodland
